

Steve Spender, President IHE

An Incorporated Engineer with over 20 years' civil engineering experience predominately in highway maintenance and design, but more recently in Network and Asset Management.

Initially, I worked for Bournemouth Borough Council for over 10 years, then spent two years with a National Contractor before joining Winchester City Council as Head of Engineering Services. I have been with Hampshire County Council since 2005 where I lead on the development and implementation of the Authority's Highway Asset Management plan. Current chairman of the UK Footways Group and hence a member of the UK Roads Board. I also chair South East Service Improvement Group (SESIG) asset management forum, and a member of HAMFIG.
