

Make a difference

**Advance
your career**

Practitioners engineers, technicians and their professional colleagues are at the heart of IHE with routes right through to Chartered Engineer.

Members, like you, work in mainstream highway and traffic engineering and sustainable transportation in the public and private sectors.

A respected member of the Engineering Council for 35 years, IHE enhances your professional standing with a comprehensive programme designed for and by members.

IHE supports you and gives a voice to the specialist engineer.

How you benefit

The Institute of Highway Engineers is the only national professional Institute which puts specialist highway and traffic practitioners first.

IHE's Professional Certificates and Register of Road Safety Auditors recognise and reward your competence. We promote the highway and transportation professional, improve practice and facilitate innovation.

Engineering Council nominated and licensed since 1972, IHE is run by and for practitioner engineers and technicians.

Holding professional qualifications and membership is worth £152,000 in additional earnings over a lifetime.

www.managers.org.uk/qualspay (2008)

IHE serves members in a wide variety of fields including:

- Highway maintenance
- Traffic and transportation
- Road safety
- Materials
- Highway design
- Traffic signal control
- Bridge maintenance
- Construction
- Development control
- The public realm
- Network management
- Asset management
- Public sector
- Clients
- Consultants
- Suppliers
- Term maintenance
- Contractors

More benefits

- Find a new job by registering with www.jobs-in-transport.com and *Surveyor*
- Road Safety Auditor Registration now available
- Affiliate Membership FREE for six months

Advance your career through IHE

Move ahead in your career through planned professional development.

You can improve your prospects by gaining CEng, IEng or EngTech, while your specialist competence is proven with an IHE Professional Certificate.

Our Mission

‘To provide professional leadership in highway engineering and to help members to advance their careers.’

Tony Sharp IEng FIHE, IHE President

IHE organises conferences for the practitioner engineer, runs training courses delivering foundation knowledge (all with discounts for members) and provides direct routes to CSCS Cards.

You can keep in touch with IHE’s journals *Highways* and *Surveyor* at an exclusive discount, and keep up to date through the IHE website Knowledge Network and the technical E Bulletin.

Local IHE branch meetings, visits and seminars are a great place to network and meet colleagues.

You can enhance your standing in your profession, whether by taking advantage of the many opportunities to contribute directly to running the organisation, or by influencing technical policy through IHE.

How to join

We welcome all transportation professionals to all grades – the right one for you depends on your experience and responsibilities.

'When you are ready to step up, IHE has the experience to help'

John Nightingale
Reviewer, CEng FIHE, JCT

Student Member
Join while you are studying full or part time or when in training. Its FREE

.....
Graduate Member
Join when you have just gained your degree, Higher or National qualification.

.....
Member

'IHE's interests and focus closely fit my responsibilities as manager of the East Kilbride depot with an £8M budget. I value the supportive networking opportunities and always find IHE interested in helping people'

Graham Milne BSc IEng FIHE,
South Lanarkshire CC

You're a professional: prove it

Demonstrating that you meet the Engineering Council's exacting standards shows to your peers and employers that you are a committed professional engineer or technician. It is also an investment in your future.

Becoming a registered engineer (CEng, IEng or EngTech) has advantages: higher earnings potential, improved career prospects, greater status and influence in your organisation and industry, recognition of your expertise and hard work and higher self esteem.

IHE's fair but rigorous review by your professional peers proves your professional commitment and technical competence.

The review essentially comprises a report of your experience, backed up by documents you have provided, presented at an interview with two registered engineers. There is normally no interview for EngTech.

You don't need a degree. Older qualifications continue to be accepted and there are experience only routes to all grades.

Get your talents recognised.
Improve your career prospects.

Get registered through IHE.
We'll help you all the way.

Entry Routes

Engineering Technician (EngTech)	or	Incorporated Engineer (IEng)	or	Chartered Engineer (CEng)
National Certificate or Diploma in Engineering		BSc in Engineering or technology		BEng (Hons) + Masters or Further Learning*
Approved NVQ3, ONC or HNC		HNC, HND in engineering normally started before 1999		MEng
Experience and responsibility but no qualifications		Recent HND/FD + Further Learning*		Accredited BEng (Hons) or BSc (Hons) in engineering normally started before 1999
		Recent HNC + Technical Report		Recent BSc (Hons) in engineering + Further Learning*
		Experience only + Technical Report		Senior IEng + Further Learning*
				Other entry routes + Technical Report*

Professional Review assessment of competence and commitment

**Further Learning can be at college or at work. Alternatively you can opt to write a Technical Report. In both cases you need to show the same level of knowledge as in the benchmark qualification (i.e. BSc or Masters).*
