

NATIONAL PASSIVE SAFETY CRASH DEMONSTRATION DAY

In association with

Have you ever seen what happens when a vehicle collides with crash barrier at 60mph? Or witnessed for yourself the life-saving capabilities of passively safe, crash friendly street furniture?

Well now you can! On **6th July 2022** Passive Safety UK will be holding another **FREE to attend** National Passive Safety Crash Demonstration Day. This unique, exciting and informative event is taking place at Darley Moor Motorcycle Road Racing Track, near Ashbourne, Derbyshire. DE6 2ET

This year our **live crash demonstrations** will include: a traditional, unforgiving 140mm diameter steel post struck at high speed; an aluminium passive post installed **within the working width** of a TCB restraint system; an aluminium passive post supporting a VMS, solar panel and wind turbine assembly and a new fibre composite signal pole, complete with energised signal heads and an electrical isolation system

Additional demonstrations and a large exhibition of other products and services compatible with road safety will also take place adjacent to the crash area. Due to the opportunity to learn from the day, **this event is endorsed for CPD certificates by both the CIHT and the IHE.**

This event is further endorsed by Jim Gallagher:

“Passively safe structures play a key role in making the road environment more forgiving. However, it is important that designers are aware of, and understand the performance of these structures to allow them to design and specify appropriate products to ensure that the positive safety benefits are achieved. National Highways welcomes initiatives to educate and inform designers and specifiers to improve safety and I am happy to support this event”.

**Jim Gallagher BSc (Hons) CEng MICE, Principal Structures Advisor
Safety, Engineering and Standards, AMD Structures, National Highways.**

Yes, places are **FREE but are strictly only available when booked in advance.** Admission to the site will only be granted to those whose booking has been confirmed. **Places are limited and these events are often over-subscribed, so you are advised to book early to avoid disappointment.**
